**AN EXTREMELY HIGH STANDARD**  
Stainless Steel Railings Solutions

## COMPANY PROFILE

**DA VINCI** has been established by visionary man Mr. Vishal Patel in 2014 based in Ahmedabad, Gujarat which is a hub of stainless steel Architectural Hardware Products in India.

With aim to supply, Uniqueness in Design, Perfection in Product, Highest in Quality, Unmatched in Finish and Excellence in Service, We are one of the leading manufacturer & exporter of premium quality Architectural Hardware & Railing products.

Our Products are made of Corrosion Resistance Stainless Steel 316/304 Grade Material. Our range of products are Handrail & Balustrade system, Lever Handle, Hinges, Lock & Pin Cylinder, Pull Handle and Door accessories.

All of our products are manufactured under one roof following ISO 9001:2015 quality management systems.

We have our own R & D Division who continuously working on innovate & develop unique design and Products.

We have well trained staff, modern technology which is allowing us to produce accurate product and Unmatched finish.

To Supply High Quality Product, we are following International standard to control our quality system.

To Give Excellence service, We have easy & fast communication channel which is allowing us to give on time feedback and effective solution to our client.

## FEATURES OF MODULAR RAILING SYSTEM

Material used for Da Vinci modular railing is 1.5mm wall thickness of tube for S.S.316 Grade material and 1.2mm wall thickness of tube for S.S. 304 Grade material.

No welding, cutting, finishing is required at site as all the finished parts are developed at our factory.

Wherever required, Joints of our Modular Railing system are internally enhanced with Bushing made of Stainless Steel for Extra Strength.

Our Railing Bend is perfect 90 Degree angel. That's why Railing is visually attractive and aesthetically appealing.

Unique finish of Railing system is achieved by applying advance polishing process as components are completely manufactured at factory only.

Extra Long High Tensile Specially developed Brass Anchor and S.S. fasteners are used to fix the balustrade on floor area to give additional Strength to mounting of a balustrade.

Da Vinci Modular Railing System eliminates any damage at site which normally happens during fabrication work of railing. It save cost of repairing of your expensive flooring after installation of railing system.

Da Vinci Modular Railing system can be dismantle and Re-install at anytime in future. It save huge cost of replacement of Railing system in future.
